

PRESS RELEASE

ErgotronHome™ Workspace™ Hub27 Named CES Innovations Award Honoree

Ergotron product named an honoree in the Computer Accessories category

St. Paul, MN, December 9, 2015—[Ergotron](#), Inc., a leading manufacturer of ergonomic display mount and sit-stand furniture solutions, today announced that the ErgotronHome™ Workspace™ Hub27 has been named a CES 2016 Innovations Award Honoree in the Computer Accessories category. The ErgotronHome retail brand [launched](#) in September with a series of sit-stand and home-tech organization products. The Workspace Hub27 is a slim cabinet that brings organization and charging capabilities to cluttered areas within the home. A true space-saver, this organizer also doubles as a wall-mounted standing desk, with a flip down adjustable-height work surface for sorting mail, making notes or short bouts of computer use. When closed, the unit, conceals and secures contents via a key-lock.

“This award recognition validates our fundamental goal in launching ErgotronHome – to provide style-driven products that bring adjustability and healthier movement into everyday activities. It also emphasizes the growing demand in the home tech space, especially as the lines between work and home continue to overlap,” said David Wardleworth, vice president, Ergotron’s Consumer Business Unit. “We are enthusiastic about the future for the Workspace Hub, along with all our new retail products, as they are specifically designed to complement any home work space and encourage users to incorporate movement while working.”

Products entered in this CES program are judged by a preeminent panel of independent industrial designers, independent engineers and members of the trade media and

reflect outstanding design and engineering in some of the most cutting edge tech products and service coming to market.

The Workspace Hub27 will be displayed at CES 2016 at the Innovations Awards Showcase, Sands Expo, Hall G, booth 83319, and OmniMount, Tech East, LVCC Central Hall, booth 15126, January 7-9, in Las Vegas, NV, and will be featured on CESweb.org/Innovations.
